And there is more,

THE COOL FRENCH!

The Cool French introduces a game changer formula !

*NO WATER
*NO MILK
*NO FRIDGE

How cool is that!

The Cool French always has consistent composition, quality and flavor with consistently perfect proportions, without the need for human-made additions of water or milk.

Therefore The Cool French has lower production costs in materials, labor and storage since The Cool French does not need any special storage conditions.

And yes! The Cool French is really cool even without a fridge! Because of its unique patented composition, The Cool French does not need any special storage conditions which in turn, makes it ideal to store or ship abroad.
